Terms of Trade

Summary

APPROVED ACCOUNT CUSTOMERS

Our Trading Terms are strictly net 30 days.

OVERDUE ACCOUNTS

If payment is not received within 45 days from statement date, the customer's account will be placed on hold.

If payment is not received within 60 days from statement date, an overdue account fee of 1.5% will be applied to the balance of the account that exceeds 60 days from statement date.

If payment is not received within 90 days from statement date, the account will be placed in the hands of a collection agency.

CASH CUSTOMERS

Goods will be dispatched upon receipt of your payment.

JAI Products retain the right to withdraw credit at anytime.

BROKEN PACKS

Acceptance of broken pack orders is at the discretion of JAI Products. Orders placed for products that are less than the pack size listed in the catalogue will incur a 20% surcharge calculated on the list price.

CREDIT CARD PAYMENTS

1.5% surcharge is applied on all credit card payments.

CLAIMS

Any defective or faulty goods will be replaced. Claims are limited to the cost of the replacement goods plus any freight incurred. Faulty goods will be credited upon return to JAI Products.

PRICING

All prices are subject to change without notice.

BANK ACCOUNT DETAILS

Internet banking and direct deposit details are:

Bank: ANZ Willoughby North

BSB: 012 474

Account: 4095 13223

Please indicate your trading name or invoice number so we may credit your account correctly.

RETENTION OF TITLE

Ownership, title and property of the Goods remains with JAI until payment in full for the Goods and all sums due and owing by the Customer of JAI on any account has been made.

*For a more detailed Terms of Trade please contact the head office.

SPECIFICATIONS FOR STRAIGHT TRACKS:

Straight tracks available ONLY in White and Clear Anodised. All motors are capable of carrying 60kgs per motor and up to 90kgs when used in tandem. All tracks over 5.0m include a second motor.

All motors are low voltage with in-built receivers. All motors can be operated by wired wall switch, wireless wall remote, hand held remote or by home automation. Optima motors may be operated by hand during power failure.

Top fitted tracks will have 40mm total deducted from the overall length to allow for access to switching controls. Tracks over 5.0m in length will be manufactured with one coupling join.

Tracks over 10.0m in length will be manufactured with two coupling joins. Any additional joins requested will incur an extra charge of **\$20.00**

All Curtain Motors Carry A Five Year Replacement Guarantee.

TRACK TYPES AVAILABLE - BEND & CURVED TRACKS IN CLEAR ANODISED ONLY

SPECIFICATIONS:

Bend/Curved tracks available only in Clear Anodised.

All motors are capable of carrying 60kgs per motor and up to 90kgs when used in tandem. All motors are low voltage with in-built receivers. All motors can be operated by wired wall switch, wireless wall remote, hand held remote or home automation.

Optima motors may be operated by hand during power failure. Top fitted tracks will have 40mm total deducted from the overall length to allow for access to switching controls.

Tracks over 5.0m in length will be manufactured with one coupling join.

Tracks over 10.0m in length will be manufactured with two coupling joins. Any additional joins requested will incur an extra charge of \$20.00. The cost of \$150.00 per bend/curve needs to be added to the Made to Measure track cost. When two bends are required a coupling join is used between the two bends. The minimum radius for each bend is 500mm. A more gradual bend (radius > 1m) can also be requested.

Each bend decreases the load capacity of each motor by 10%. For tracks with a single bend/curve and that are under 4.0m total length, only one motor is required. For tracks 4.0m and above a second motor is required.

Diagrams required for each bent/curved track (see over). In addition to this, curved tracks require full template.
